CHAPTER 2150 – PESTICIDE-USE MANAGEMENT AND COORDINATION

2155 - PESTICIDE SELECTION, EVALUATION AND QUALITY CONTROL

2155.3 - Application of Pesticide Adjacent to Private Property

District Rangers or their representatives shall notify adjacent landowners and occupants prior to herbicide application. Adjacent must be loosely interpreted to include all nearby people who would like to receive notification - at least within one-quarter mile of the application site. If landowners express serious concern, consider other alternatives including using a different herbicide or no herbicide where opportunities exist.

Do not apply herbicide within 100 feet of private property unless landowner agrees to closer treatment. Do not apply herbicide within 300 feet of a private residence or known local household water supply. Site conditions and/or private landowner (or occupant) concern may dictate greater distances.
